

BASEWEST specializes in aircraft escape slide lighting systems—winning every new Boeing, Airbus and regional jet slide lighting program awarded since 1996 including 737, 747-8, 757, 767, 777, A320, A330/340, Embraer 170/190, and most recently the A380, 787, A350, and CSeries programs. We are certified, delegated source suppliers to Air Cruisers and Goodrich.

BASEWEST has supported airlines, MRO's and service centers worldwide since 1992 with FAA-PMA and TSO-approved products including batteries for escape slide lighting systems and cabin crew flashlights.

We are an AS9100-certified and FAA-approved manufacturing facility with the industry's best service and price - and shortest lead times. Our limited warranty extends throughout the service life of our products.
